---

I am a forward-thinking, enthusiastic, and passionate software developer with an eye for detail. I have an incredibly high work ethic and I thrive off being challenged and placed in stressful situations. I am looking for a job that will help me grow as a developer and give me the opportunity to learn. I work extremely well in groups and I have the ability to take charge if the opportunity presents itself.

## EXPERIENCE

**FEB 2017 – JUN 2019**

**JOURNALIST**, BRAVADO GAMING

During my final few high school years and my first year of university, I worked remotely as a journalist for the largest MGO in South Africa. I gained a good understanding about the importance of presenting high quality work on time, maintaining a good work ethic, and staying balanced as well as invaluable experience working alongside some of the most innovative entrepreneurs in the industry.

**MAY 2020 – CURRENT**

**FULL STACK DEVELOPER**, FREELANCE

Due to the Covid-19 pandemic, I had a lot of time to myself at home which I used to study full-stack web development. I completed various online courses as well as small projects for myself and for friends, family, and eventually small businesses.

## EDUCATION

**JAN 2019 – CURRENT (EXPECTED TO COMPLETE IN 2021)**

**BSC COMPUTER SCIENCE**, UNIVERSITY OF THE WESTERN CAPE

I am passionate about computers, hence I decided to give computer science a go after doing extensive research. Initially I found myself questioning my choice, however, after a few months I fell in love with computer science, programming and software development, the rest is history. I achieved an A average pass in my first year of university, and I am currently achieving similar results during my second year.

## SKILLS

- JavaScript
- HTML
- Java
- Python
- CSS, SASS
- React
- Node.js
- Express

## **ACTIVITIES**

I love chess, building and fixing computers, archery, writing and gaming. I have an excellent command over the English language, as well as being conversational in Afrikaans and having a basic understanding of Arabic.
